

Queensland Super TT
Contingency Awards Program
2025

Concept

The Queensland Super TT (QSTT) contingency awards program is designed to give all competitors a chance to win an award on a race weekend through means other than purely performance based measures. It also provides partnered brands and business's advertising space on all vehicles that have registered for each award as well as promotion through QSTT social media channels.

Function

To be eligible for an award, the entrant must display the partners sticker – which is supplied – on each side of the vehicle. Position may be dictated by the award partner. The award partner will also direct the conditions on how to win the award. For example, the partner may choose that the winner of the award will be the driver who finishes 8th in race two, or the driver who qualifies 4th. Each award conditions will be decided by each partner.
